TOBACCO DISPLAYS

Tobacco Displays that Exceed Expectations

Designed to be flexible, proven to last!

Removable back panel (Display shown without panel)

LED flip-down illuminated sign also downlights product below. Enables product to be stored behind sign. Utilizes graphics that are sized for tobacco manufacturer advertising.

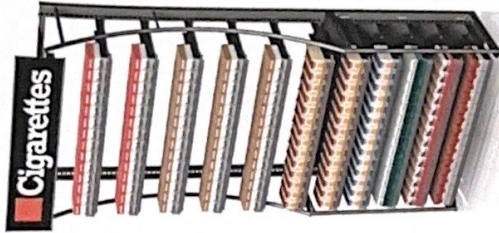

Storage cabinets use extra heavy duty drawer slides, allowing full drawer extension. Drawer constructed of powder coated sheet metal. Optional cabinet fronts are available with laminated cherry-birch Formica. Cartons are stored vertically for easy product and code date identification.
